

Environmental Advisory Council

Our Thornbury EAC team loves the warming weather! What a great time to walk our township trails and enjoy the variety of events in our community. Make sure to check out the return of our Thornbury Stream Ecology event in June. Thanks also to those who purchased trees this spring for another sold out offering.

4th Annual Thornbury Family Stream Ecology Event

We welcome back Noah Grill, Recreational Program Manager & Educator, for a fun afternoon learning about our community's streams while enjoying the beauty of Bonner Park. This EAC-hosted event has become increasingly popular with kids and adults alike. You'll get the chance to check out local animals and insects (think frogs & crayfish) with provided nets, a field microscope, and tanks. We'll also have grab bags for the kids to make the day extra special. Entrance to the event is at the parking lot at Locksley Road to Bonner Park. We would love to see you on **Saturday, June 15th, from 10am to 12pm.**

"Trees for 10" was a great success!

A big thank you from your EAC to those who purchased trees and bushes from our annual "Trees for 10" event this spring. The selection completely sold out in just a few days! It's fantastic to see our community beautify their yards and help nature thrive.

Sustainable Swaps - Clothing is up next. Fast fashion (low-cost, trendy clothing mass produced for consumers) has resulted in massive overproduction and overconsumption, and is one of the largest causes of environmental waste. Read the upcoming issue to learn more about how you can help.
